Answers

1. *SCAM* – Real banks never ask you to click links or provide info this way. **2. *SCAM*** – Unexpected prize with a shortened link? Classic phishing.
3. *SAFE* – If you recently ordered and the link looks legit (e.g., amazon.com), it could be fine — but always double-check! **4. *SCAM*** – The ATO does not call and threaten arrest. **5. *SCAM*** – Even if it looks like a friend, this is a common impersonation scam.
